

# Build your very own SKA Dish!

Tip: this section folds into a three-sided arm.

**What it should look like!**

-  Colour in your SKA dish.
-  Cut along solid lines. Keep the cut-out in a single piece. Ask for adult help to cut the slots.
-  Gently fold along dotted lines. Note the final shape as pictured (left).
-  Assemble by gently pushing lettered tabs into the lettered slots. Use sticky-tape to hold in place.
